

Team Meeting Agenda and Minutes

Editable professional template

This team meeting agenda and minutes provides a structured, editable record for use in an Ofsted registered children's home. It supports clear evidence, child centred practice, management oversight and timely review. The home must adapt the document to its Statement of Purpose, policies, children's needs and local arrangements.

How to use this template

Complete every relevant field using factual, specific and proportionate information. Record the child's views and the rationale for decisions. Cross reference supporting records rather than copying sensitive material unnecessarily. Review after significant events, changes in need, new information or within the home's agreed review cycle.

This template supports good governance but does not replace professional judgement, statutory guidance, the Children's Homes Regulations 2015, safeguarding procedures, health and safety duties or advice from the relevant authority or specialist.
